WELCOME

Welcome to our second Production Sale! Thank you for joining me.

I'd like to share the Bolen Longhorns story with you. I think it's important to share what has led to this point in our breeding program and this point in our involvement in the Longhorn Breed.

In 1995 my late husband, Brent, and I moved to Queen Creek, AZ where we had only about 4 acres of irrigated pasture land. We desperately needed something to eat the grass. After seeing a Longhorn steer that a friend had, and learning the history of the breed, we quickly knew that was the type of cattle we wanted.

We proceeded to contact Charlene Semkin who lived in Arizona at the time and was known for her herd of Texas Longhorns. Being the salesperson that she is, she easily convinced us that cows and calves would be much more enjoyable than a yard full of steers. Charlene also convinced us of all the fun we could have showing the Longhorns we'd purchased. Since that also peaked our interest, we thought we'd give it a try and try we did! We raised and showed many Champion Longhorns from 1995 until our kids graduated High School. It was during this time that we learned so much about the balance and structure of this great cattle breed.

Around 2000, Horn Measurement competitions began to gain popularity and we realized that if we were going to compete in those events, we needed to also focus on finding the right genetics to add horn to our well conformed cattle. That's when we purchased Watson 167. His daughters have deep bodies with good wide hips and plenty of milk. Watson 167 daughters have made a huge impact in our herd. Some of them include Cooper's 167 Lamb, Whistle Me Dixie BCB, Red Diamond BCB, Dixie Red BCB and Katz Meow BCB.

As his daughters came on strong and continued to impress us, we began looking for a bull to cross them with. It was then that we found Working Man Chex. With him we gained the genetics of a Butler bull named Coach and the fantastic maternal lines of Working Woman.

The next bull to enter our herd was Bandera Chex. We look at the dams, as much as the sires, when choosing our next herd sire. Why? You're probably going to have a pasture full that are just like her. We have had some outstanding offspring by this great sire as you'll see in this sale.

Since those days of searching and learning, our herd sire lineup has included great bulls like Ringman BCB, Swagger BCB, Fifty-Fifty BCB and Justify. And our newest bulls are Whiskey Bent BCB, Hello Darlin' and Black Market.

Ellie and Candy Man BCB

Jace and Treasure Hunt BCB

We've won many Championship Titles and Horn Measuring Bronzes. We have over 50 Rifles from Futurity wins. We bred the Longest Horned Steer ever publicly measured, Bucklehead BCB. We've hosted many ranch tours and served on several committees. Brent was the TLBAA Chairman of the Board for a time. We raised our kids in sale barns and show arenas.

We've met some of the best people we know through Texas Longhorns. Some friends are just like family now. We're glad to have had the opportunity to learn from the 'old timers' that have since passed, of which Brent probably now holds court in this group with his dad jokes and tall tales, and I'm happy to help the new breeders that are just getting started. I feel this is one of the best ways to pay Brent's legacy forward and continue to have a breeding program we'd both be proud of.

You can buy from us with confidence. I say us, because so many of the cattle offered in this sale were pedigrees planned, researched and bred by Brent and I together. All of our cattle are backed by our guarantee - We don't knowingly sell bad cattle and we love happy, repeat customers.

So, I'd like to welcome you to our sale and offer some of Brent and I's best breeding for your consideration. I hope you enjoy our story. I'd love to hear yours - please make sure to come and introduce yourselves at the sale if we have not already met or contact me beforehand with any questions you may have about our cattle. And, as always, please continue to share your humorous stories about Brent. His legacy lives on in our family, our cattle, but also in each of your memories.

Cindy Bolen

Twisted Gypsy BCB's dam, Old Town Gypsy BCB and Bandita Roja BCB, who's in the sale, are good examples of why I love that cow. These daughters are constantly producing great offspring! We bred Old Town Gypsy BCB to a young WS Vindicator son that we own with Chris Clark and I'm excited with the results we're getting. Sales Comments: We couldn't stress enough how important it is to really evaluate every aspect of a bull when choosing a herd sire. The less there is to correct about a bull, the less you're going to have to correct in the offspring he produces. He's got good horn growth of 46.5" TTT at only 16 months old. He's got a super quiet and manageable disposition. Sales Comments: I've enjoyed watching this young cow grow. She's a rare black and white daughter of Swagger BCB. Her bottom side includes the great Coach bull, who we've had a lot of success using in our program. We owned and used three of his sons, Working Man Chex, Fantom Chex and FA Field Marshal. Kalamata BCB sells with her first calf, a heifer, born 3/20/2023, sired by Hello Darlin' and is exposed back the same way.

Sales Comments: Gamble In Diamonds BCB has a maternal pedigree that goes way back in our program. We purchased her grandsire, Tabasco, and granddam, Zhibless, back in 1998. These genetics have helped carry the wonderful milking ability that she has. She's an easy keeping cow, just look at her photo on our website that I took in January. She has a pretty heifer calf at side sired by Hello Darlin', a Reckon So son out of the beautiful BL Rio Darlin 823.

BULL

Sales Comments: Brent and I have always been very particular about the bulls we raise. We wouldn't sell one that we wouldn't use ourselves. We choose bulls by the quality of their dams as much as their sires. We've watched this young bull since he was born. He obviously has the color, but more importantly he has checked all the boxes when it comes to genetics, size, structure, soundness and disposition. We bred his dam and granddam and we used Ringa Dinger, his great-granddam, in our own program for 18 years. We chose his sire based on the predictability and mothering ability of the Poco Lady BL line. His maternal sister, Just Delightful BCB, measures 74" TTT at 26 months old and I am keeping his dam.

Sales Comments: Check out this gorgeous, spotted brindle daughter of the great Fifty-Fifty BCB. Her maternal line goes back to the beautiful Jester cow. Jesta Winner BCB is big, beautiful and quiet. She's made so well that we should've put her on the show circuit. She slipped her first calf, but has turned out to be a super mama and has no trouble breeding right back. She can give it all to her calf and still maintain her body condition. Her genetics are highly sought after and hard to come by. Sales Comments: Here is another beautiful Justify daughter out of a hidden gem of a cow, Ring My Bell BCB. We've had Ring My Bell BCB in our program since she was born 10 years ago because of the consistency in her production. The cow makes money either by selling her offspring or using them in our own program. Follow me here, the half-sister to Jezebell BCB, Adora Belle BCB, produced a Justify daughter, Just Delightful BCB, who measured 74" TTT at only 26 months old. See where I'm going with this?
